S&P	Standard & Poor's
ТТС	through-the-cycle
UNJSPF	United Nations Joint Staff Pension Fund

# **Recommendation for approval**

The Executive Board is invited to approve the following decision:

In accordance with regulation XII(6) of the Financial Regulations of IFAD, the Executive Board considered the Consolidated Financial Statements of IFAD as at 31 December 2021 and the report of the external auditor thereon, including the independent external attestation on the effectiveness of internal controls over financial reporting, and agreed to submit them to the Governing Council at its forty-sixth session in February 2023 for approval.

In accordance with Financial Regulation XIII and considering the financial position and results at the end of 2021, no transfer to the General Reserve should be made.

# **Consolidated Financial Statements of IFAD as at 31 December 2021**

# (including a Management assertion report and an independent external attestation on the effectiveness of internal controls over financial reporting)

- 1. The Executive Board is invited to consider the attached Consolidated Financial Statements of IFAD (appendices A to M), and the report of the external auditor, for submission to the Governing Council for approval.
- 2. In accordance with article 6, section 11 of the Agreement Establishing IFAD, the Consolidated Financial Statements will form part of IFAD's 2021 Annual Report. As in previous years, a note will be inserted in accordance with the above recommendation for approval.
- 3. The Consolidated Financial Statements for 2021 are scheduled to be reviewed in detail at the 164<sup>th</sup> meeting of the Audit Committee, to be held in March 2022. The Chairperson of the Audit Committee will make a formal report to the Executive Board at its 135<sup>th</sup> session on the Committee's conclusions with respect to these statements.
- 4. In accordance with the International Financial Reporting Standards, the General Reserve represents an appropriation of retained earnings. Between 1980 and 1994, the Executive Board approved several transfers, bringing it to the current level of US\$95 million.
- 5. For the 2021 financial year, Financial Regulation XIII became applicable. It states that: "Annual transfers from the accumulated surplus to the General Reserve shall be determined by the Executive Board after taking into account the Fund's financial position in the context of the review/approval of yearly audited financial statements of the Fund".
- 6. Issues to be considered in assessing annual transfers to the General Reserve include: the overall balance of the accumulated surplus/deficit; and the underlying drivers of the yearly net income/loss, particularly unrealized gain/loss balances.
- 7. Considering that at the end of 2021 the Fund reported a net comprehensive loss on a consolidated basis of US\$457.2 million and a net comprehensive loss for IFAD only of US\$503.4 million, net retained earnings remain negative at approximately US\$2.7 billion (for both the consolidated and IFAD-only balance sheets) at the end of 2021. It is therefore not recommended that any transfer to the General Reserve be made.

### Notes on reading these financial statements:

- The notes to the Consolidated Financial Statements, contained in appendix D, form an integral part of the statements.
- The Consolidated Financial Statements have been prepared using the symbols of the International Organization for Standardization.
- The separate document titled High-level Review of IFAD's Financial Statements, provides additional information to assist readers in interpreting the financial statements.
- The figures presented in the financial statements have been rounded. As a result, there may be discrepancies between the actual totals of individual amounts in the tables and the totals shown, as well as between the numbers in the tables and those included in the text.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### NOTE 1

# BRIEF DESCRIPTION OF THE FUND AND THE NATURE OF OPERATIONS

The International Fund for Agricultural Development (herein after IFAD or the Fund) is a specialized agency of the United Nations. IFAD formally came into existence on

30 November 1977, on which date the agreement for its establishment entered into force, and has its headquarters in Rome, Italy. The Fund and its operations are governed by the Agreement Establishing the International Fund for Agricultural Development.

As an international financial institution, IFAD enjoys a de facto preferred creditor status (PCS). As is the case for other international financial institutions, PCS is not a legal status, but is embodied in practice and granted by the Fund's stakeholders (177 Member States). The concept of PCS receives consistent universal recognition from entities such as bank regulators, the Bank for International Settlements and rating agencies.

Membership in the Fund is open to any Member State of the United Nations or any of its specialized agencies, or the International Atomic Energy Agency. The Fund's resources come from Member contributions, special contributions from non-Member States and other sources, and funds derived or to be derived from operations or otherwise accruing to the Fund, including by borrowing from Members and other sources.

The objective of the Fund is to mobilize additional resources to be made available on concessional terms primarily for financing projects specifically designed to improve food production systems, the nutrition of the poorest populations in developing countries and the conditions of their lives. IFAD mobilizes resources and knowledge through a dynamic coalition of the rural poor, governments, financial and development institutions, intergovernmental organizations, non-governmental organizations and the private sector, including cofinancing. Financing from non-replenishment sources in the form of supplementary funds and human resources forms an integral part of IFAD's operational activities.

# NOTE 2

# SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these Consolidated Financial Statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

## (a) Basis of preparation

The Consolidated Financial Statements of the Fund are prepared in accordance with International Financial Reporting Standards (IFRS) and on a going concern basis, based on the current financial situation and cash flow forecast. Information is provided separately in the Financial Statements for entities where this is deemed of interest to readers of the Financial Statements.

The preparation of Financial Statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires Management to exercise judgement in the process of applying accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Consolidated Financial Statements are disclosed in note 3.

#### New and amended IFRS mandatorily effective

During 2021, there were no new or amended IFRS standards or pronouncements with a material impact on IFAD.

In January 2021 the requirements relating to the "Interest Rate Benchmark Reform – phase 2 amendments" become effective. The publication United States dollar LIBOR will continue to be published until 2023, while the publication of all other LIBOR rates ceased at the end of December 2021. Although new transactions may not reference the United States dollar LIBOR after end-2021, rates will be available for the purposes of legacy transactions until 2023. In line with IFRS requirements, the change will be accounted for by updating the effective interest rate. As of 2022, financial instruments (loans, borrowings and other securities) will be aligned with the Secured Overnight Funding Rate (SOFR) conventions, and the impact as assessed is not material.

#### IFRS not yet mandatorily effective

The following standards or pronouncements will become effective on 1 January 2022 and will not have a material impact on IFAD:

- Amendments to IFRS 3 Business Combinations;
- Amendments to International Accounting Standard (IAS) 16 - Property, Plant and Equipment; and
- Amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

#### (b) Area of consolidation

Financing in the form of supplementary funds and other non-core funding forms an integral part of IFAD's operations. The Fund prepares consolidated accounts that include the transactions and balances for the following entities:

- Special Programme for sub-Saharan African Countries Affected by Drought and Desertification (SPA);
- IFAD Fund for Gaza and the West Bank (FGWB);
- Other supplementary funds including technical assistance grants, cofinancing, associate professional officers (APOs), programmatic and thematic supplementary funds, the Belgian Fund for Food Security Joint Programme (BFFS.JP) and the Global Environment Facility (GEF); and the Rural Poor Stimulus Facility (RPSF) launched in 2020 in response to the COVID-19 pandemic.
- IFAD's Trust Fund for the HIPC Initiative;
- IFAD's ASMCS Trust Fund;

- Administrative account for Haiti Debt Relief Initiative;
- Spanish Trust Fund;
- Rural Resilience Programme (former ASAP Trust Fund);
- Private Sector Trust Fund (PSTF); and
- African Agricultural Transformation Initiative (AATI), approved by the Executive Board in August 2021.

These entities have a direct link with IFAD's core activities and are controlled by IFAD in accordance with IFRS 10. In line with the underlying agreements and recommendations establishing these entities, IFAD has the power to govern the related financial and operating policies. IFAD is exposed or has rights, at a minimum, to the residual results of its involvement with these entities, and has the ability to affect those results through its power over the components. Accordingly, these entities are consolidated in IFAD's Financial Statements. All transactions and balances among these entities have been eliminated. Additional financial data for the funds are provided upon request to meet specific donor requirements. All entities included in the consolidation area have a fiscal period corresponding to the solar year.

#### Entities housed and other facilities

These entities do not form part of the core activities of the Fund and IFAD does not have power to govern the related financial and operating policies. As such, they are not consolidated as they are not substantially controlled. As at 31 December 2021, the only entity hosted by IFAD is the International Land Coalition (formerly known as the Popular Coalition to Eradicate Hunger and Poverty).

The Fund is an accredited entity of the Green Climate Fund (GCF), and in 2020 signed the first contribution agreement with the GCF. As an accredited entity of the GCF, IFAD does not have the power to govern the related financial and operating policies and is not exposed or has rights to the results of its involvement in GCF-financed activities.

# (c) Investments in private sector initiatives

Since 2018, IFAD has partnered with the European Union, the Government of Luxembourg, and the Alliance for the Green Revolution in Africa to establish the Agribusiness Capital Fund (ABC Fund), a private sector fund that aims to boost investments in small rural agribusinesses across emerging markets. IFAD acted as sponsor in the establishment of the ABC Fund, which is a separate legal entity. IFAD has subscribed share investments through supplementary funds – both on behalf of third parties and directly on its own account (with support from the Swiss Agency for Development and Cooperation). In accordance with IFRS 10, IFAD does not exercise control over decision-making in respect of investments made by the ABC Fund.

#### (d) Translation and conversion of currencies

Items included in the Consolidated Financial Statements are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The Consolidated Financial Statements are presented in United States dollars, which is IFAD's functional and presentation currency. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the net profit or loss of the period in which they arise.

The results and financial position of the entities/funds consolidated that have a functional currency different from the presentation currency are translated into the presentation currency and are reported under other comprehensive income/loss as follows:

- Assets and liabilities expenditures are translated at the closing rate and revenue and expenditures are translated at the yearly average rate; and
- All resulting exchange differences are recognized as a separate component of other comprehensive income.

#### (e) Measurement of financial assets and liabilities

#### Financial assets at amortized cost

A financial asset is classified at "amortized cost" only if both of the following criteria are met: the objective of the Fund's business model is to hold the asset in order to collect the contractual cash flows, and the contractual terms of the financial asset must give rise on specified dates to cash flows that are substantially only payments of principal and interest on the principal amount outstanding.

#### Financial assets at fair value

If either of the two above criteria is not met, the asset cannot be classified in the amortized cost category and must be classified at fair value through profit and loss (FVTPL). The fair value through other comprehensive income category is not used by the Fund. All other financial assets not classified at amortized cost are classified as FVTPL.

#### Financial liabilities measured at amortized cost

Financial liabilities measured at amortized cost comprise financial instruments (other than liabilities held for trading or those designated at fair value) representing the various forms of third-party funding.

These financial liabilities are recognized at settlement date initially at fair value, which is normally the consideration received less transaction costs directly attributable to the financial liability. Subsequently these instruments are measured at amortized cost using the effective interest method.

# (f) Equity

This comprises the following three elements: (i) contributions (equity); (ii) General Reserve; and (iii) retained earnings.

#### (i) Contributions (equity) Background to contributions

The contributions to the Fund by each Member when due are payable in freely convertible currencies, except in the case of Category III Members up to the end of the Third Replenishment period, which were permitted to pay contributions in their own currency whether or not it was freely convertible. Each contribution is to be made in cash or, to the extent that any part of the contribution is not needed immediately by the Fund in its operations, may be paid in the form of non-negotiable, irrevocable, noninterest-bearing promissory notes or obligations payable on demand.

A contribution to IFAD replenishment resources is recorded in full as equity and as receivable when a Member deposits an instrument of contribution, except for qualified instruments of contribution, which are subject to national appropriation measures and which will be proportionally reduced upon fulfilment of those conditions. Amounts receivable from Member States as contributions and other receivables including promissory notes, have been initially recognized in the balance sheet at their FVTPL in accordance with IFRS 9.

Concessional partner loans (CPLs) have been introduced with the adoption of the Eleventh Replenishment of IFAD's Resources (IFAD11) resolution. Borrowing terms of CPLs are concessional: the maturities are either 25 or 40 years with a grace period of 5 years for a 25-year loan and 10 years for a 40-year loan. Voting rights are allocated to Member States that provide CPLs in an amount proportionate to the grant element embedded in such loans. Proceeds received as CPLs consists of two components: a borrowing component and an equity component. The equity component is the derived grant element, computed on the basis of the loan terms and the discount rate agreed over the replenishment consultations. The grant element is recorded as equity.

#### Allowance for contribution impairment losses

The Fund has established a policy on provisions against overdue Member States' contributions while still maintaining PCS as follows:

If there is evidence that an identified asset is impaired, a specific provision for impairment is recognized. Impairment is quantified as the difference between the carrying amount and the collectable amount. The criteria used to determine whether there is objective evidence of an impairment loss include:

- Delinquency in contractual payments of principal and interest;
- Cash flow difficulties experienced by the borrower;
- Breach in contracts or conditions; and
- Initiation of bankruptcy proceeding.

In the absence of such evidence, provisions will be set up as follows:

- Whenever a payment of an instalment against an instrument of contribution or a payment of a drawdown against a promissory note becomes overdue by 24 months, a provision will be made equal to the value of all overdue contribution payments or the value of all unpaid drawdowns on the promissory note(s) outstanding.
- Whenever a payment of an instalment against an instrument of contribution or a payment of a drawdown against a promissory note becomes overdue by 48 months or more, a provision will be made against the total value of the unpaid contributions of the Member or the total value of the promissory note(s) of that Member related to the particular funding period (i.e. a replenishment period).
- The end of the financial year is currently used for determining the 24- and 48-month periods.

#### (ii) General Reserve

The General Reserve may only be used for the purposes authorized by the Governing Council and

was established in recognition of the need to cover the Fund's potential over-commitment risk as a result of exchange rate fluctuations, possible delinquencies in loan service payments or in the recovery of amounts due to the Fund from the investment of its liquid assets. It is also intended to cover the risk of over-commitment as a result of a decrease in the value of assets caused by fluctuations in the market value of investments.

As per Financial Regulation XIII, "annual transfers from the accumulated surplus to the General Reserve shall be determined by the Executive Board after taking into account the Fund's financial position in the context of the review/approval of yearly audited financial statements of the Fund".

#### (iii) Retained earnings

Retained earnings represent the cumulative excess of revenue over expenses inclusive of the effects of changes in foreign exchange rates.

### (g) Loans

#### (i) Background to loans

IFAD loans are made only to developing states that are Members of the Fund or to intergovernmental organizations in which such Members participate. In the latter case, the Fund may require governmental or other guarantees. A loan enters into force on the date that both the Fund and the borrower have signed it, unless the financing agreement states that it is subject to ratification. In this case, the financing agreement shall enter into force on the date the Fund receives an instrument of ratification. All IFAD loans are approved and loan repayments and interest are payable in the currency specified in the loan agreement. Loans approved are disbursed to borrowers in accordance with the provisions of the loan agreement.

Currently, the lending terms of the Fund are as follows:

(a) Special loans on highly concessional terms shall be free of interest but bear a service charge of 0.75 per cent per annum and have a maturity period of 40 years, including a grace period of 10 years; (b) loans on hardened terms shall be free of interest but bear a service charge of 0.75 per cent per annum and have a maturity period of 20 years, including a grace period of 10 years; (c) loans on blend terms shall be free of interest but bear a service charge of 0.75 per cent per annum plus a spread and have a maturity period of 20 years, including a grace period of 10 years (these are applicable from 2013 onwards); (d) loans on intermediate terms shall have a rate of interest per annum equivalent to 50 per cent of the variable reference interest rate, as determined annually by the Executive Board, and a maturity period of 20 years, including a grace period of 5 years; (e) loans on ordinary terms approved prior to 2019 shall have a rate of interest per annum equivalent to 100 per cent of the variable reference interest rate, as determined quarterly by the Executive Board, and a maturity period of 15 to 18 years, including a grace period of 3 years; (f) loans on ordinary terms approved after 2019 shall have a rate of interest per annum equivalent to 100 per cent of (i) the respective base rate for the denomination currency, (ii) the country maturity premium adjustment, and (iii) either the fixed or variable spread, as determined quarterly by the Executive Board; and a maturity period of 10 to 18 years, including a grace period of 3 years; and (g) no commitment charge shall be levied on any sovereign loan.

#### (ii) Loans to non-Member States

At its twenty-first session in February 1998, the Governing Council adopted resolution 107/XXI approving the establishment of a fund for the specific purpose of lending to Gaza and the West Bank (FGWB). The application of article 7, section 1(b), of the Agreement Establishing IFAD was waived for this purpose. Financial assistance, including loans, is transferred to the FGWB by decision of the Executive Board and the repayment thereof, if applicable, is made directly to IFAD's regular resources.

At its 129<sup>th</sup> session, the Executive Board approved document EB 2020/129/R.11/Rev.1, setting forth the framework for IFAD non-sovereign private sector operations.

#### (iii) Heavily Indebted Poor Countries (HIPC) Initiative

IFAD participates in the International Monetary Fund/World Bank original and enhanced HIPC Initiative as an element of IFAD's broader policy framework for managing operational partnerships with countries that face the risk of having arrears with IFAD in the future because of their debt-service burden. Accordingly, IFAD provides debt relief by forgiving a portion of an eligible country's debtservice obligations as they become due.

In 1998, IFAD established a Trust Fund for the HIPC Initiative. This fund receives resources from IFAD and from other sources, specifically dedicated as compensation to the loan-fund account(s) for agreed reductions in loan repayments under the Initiative. Amounts of debt service forgiven are expected to be reimbursed by the Trust Fund on a pay-as-you-go basis (i.e. relief is when debt-service obligations become due) to the extent that resources are available in the fund.

The Executive Board approves each country's debt relief in net present value terms. The estimated nominal equivalent of the principal components of the debt relief is recorded under the accumulated allowance for the HIPC Initiative, and as a charge to the HIPC Initiative expenses in the statement of comprehensive income. The assumptions underlying these estimates are subject to periodic revision. Significant judgement has been used in the computation of the estimated value of allowances for the HIPC Initiative.

The charge is offset and the accumulated allowance reduced by income received from external donors to the extent that such resources are available. The accumulated allowance for the HIPC Initiative is reduced when debt relief is provided by the Trust Fund.

In November 2006, IFAD was granted access to the core resources of the World Bank HIPC Trust Fund, in order to assist in financing the outstanding debt relief once countries reach completion point. Financing is provided based on net present value calculation of their future debt relief flows.

#### (iv) Measurement of loans

Loans are initially recognized at fair value on day one (based on disbursement to the borrower) and subsequently measured at amortized cost using the effective interest method. The fair value is calculated using an enhanced fair value tool by applying discount rates to the estimated future cash flows on a loan-by-loan basis in the currency in which the loans are denominated.

# (v) Accumulated allowance for impairment losses

IFAD has established the forward-looking expected credit loss (ECL) methodology to calculate an allowance for loan impairment. The methodology embeds PCS features. It is applied to financial assets recorded at amortized cost such as loans and debt securities. The Fund is required to recognize an allowance for either 12 months or lifetime ECLs, depending on whether there has been a significant increase in credit risk since initial recognition.

ECL reflects a probability-weighted outcome, time value of money and the best available forward-looking information through the inclusion of macroeconomic factors.

ECL comprises a three-stage model based on changes in credit quality since initial recognition/origination of the financial instrument. Origination is the date on which disbursement conditions have been met. Impairments are reported based on either 12-month or lifetime ECLs, depending on the stage allocation of the financial instrument. The stage allocation also determines if interest income for the financial instrument is reported on the gross carrying amount, as for stage 1 and 2, or the net of impairment allowance, as for stage 3.

The staging model relies on a relative assessment of credit risk (i.e. a loan with the same characteristics could be included in stage 1 or stage 2, depending on its credit risk at origination). As a result, the same counterpart could have loans classified in different stages.

**Stage 1** includes "performing" financial instruments that have not had a significant deterioration in credit quality since initial recognition or have a low credit risk at reporting date. For these instruments, the ECL is a probability-weighted result of default events that are possible within the next 12 months after the reporting date. Low-risk assets (investment grade) are classified as stage 1.

**Stage 2** includes "under-performing" financial instruments that have had a significant increase in credit risk since initial recognition, but for which there is no objective evidence of impairment. For these assets, the lifetime ECL results from all possible default events over the expected lifetime, weighted with the probability of default. Interest income is computed on the gross carrying amount.

**Stage 3** includes "non-performing" financial instruments when there is objective evidence of impairment/default at the reporting date. For these instruments, lifetime ECLs are recognized. According to IFRS 9, interest is computed on the net carrying amount. Considering that the Fund fully provides for the interest accrued, the calculation is determined on the qross basis.

Movements between stages depend on the evolution of the financial instrument's credit risk from initial recognition to reporting date. Movements, whether improvements or deterioration, may therefore cause volatility in the impairment allowance balances.

IFAD has adopted some rebuttable presumptions associated with days past due. In line with the debt servicing procedures, financial instruments overdue by more than 75 days are classified at stage 2 while financial instruments overdue by more than 180 days are classified at stage 3. The carrying amount of the financial instrument is reduced through an allowance account and the loss amount is recognized in the income statement.

Interest and service charges for financial instruments classified at stages 1 and 2 are recognized following the accrual basis, while for financial instruments classified at stage 3, interest and service charges are recognized as income only when actually received.

### (h) Investments

#### (i) Classification and Measurement

The Fund's investments are classified at FVTPL or at amortized cost. Investments are classified at amortized cost when they belong to a portfolio managed by the Fund based on a business model to hold those securities until their maturity, by collecting solely maturing interest and principal in line with the contractual characteristics. If the above conditions are not met, the Fund carries investments at FVTPL. Fair value is determined in accordance with the hierarchy set in note 3. For securities at FVTPL, both realized and unrealized security gains and losses are included in income from investments as they arise. Both realized and unrealized exchange gains and losses are included in the account for movements in foreign exchange rates as they arise. All purchases and sales of investments are recognized on the trade date. Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured at their FVTPL. The majority of derivatives are used as hedging instruments (although they do not qualify for hedge accounting) and therefore changes in the fair value of these derivative instruments are recognized immediately in the statement of comprehensive income.

#### (ii) Accumulated allowance for securities held at amortized cost

Securities held at amortized cost are subject to an impairment allowance calculated based on an ECL methodology similar to the accounting policy established for loans. A three-stage model for impairment is applied based on changes in the credit quality of the financial instrument since origination. The origination of the financial instrument is the date on which the instrument was purchased by the Fund. Considering the Investment Policy requirements adopted by the Fund, the investment portfolio held at amortized cost is classified at stage 1 since the financial instruments are investment grade, and therefore the low credit risk instruments exemption applies.

## (i) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and deposits held at call with banks. They also include investments that are readily convertible at the balance sheet date. Net investment payables and investments at amortized cost are excluded from readily convertible investments for cash flow purposes.

#### (j) Share investments

The Fund, through supplementary fund contributions, held equity investments in the private sector. Such investments are accounted for at FVTPL. Share investments have been recognized at day one at settlement date for the subscribed value. Realized gains and losses are recognized in the profit and loss in the proper period based on settlement date and value. Fair value changes may generate unrealized gains and losses which are accounted for in the profit and loss. The fair value of the share investment derives from the net asset value, incorporating a liquidity adjustment on a case-bycase basis. As these investments do not meet IFRS 10, IFRS 11 and IAS 28 requirements, they are not considered controlled, a joint venture or associated entities. In line with IFRS 9 requirements, as share investments do not meet the requirements to be accounted for at amortized cost, they are accounted for at FVTPL.

# (k) Contributions (non-equity)

Contributions to non-replenishment resources are recorded as revenues in the period in which the related expenses occur. For project cofinancing activities, contributions received are recorded as revenues in the period in which the related grant becomes effective. Contributions relating to programmatic grants, APOs, BFFS.JP and other supplementary funds are recorded in the balance sheet as deferred revenues and are recorded as revenue by the amount of project-related expenses in the statement of comprehensive income. Where specified in the donor agreements, contributions received (including management fees) and interest earned thereon, for which no direct expenses have yet been incurred, are deferred until future periods to be matched against the related costs. This is consistent with the accounting principle adopted with regard to IFAD's combined supplementary funds and serves to present the underlying nature of these balances more clearly. Contributions to non-replenishment resources other than the one described above, being similar to donations are recorded as other income in the period in which the contribution occurs.

A list of such contributions can be found in appendix E.

Individual donors provided human resources (in the form of APOs) to assist IFAD in its activities. The contributions received from donors are recorded as revenues and the related costs are included in staff costs.

# (I) Grants

The Agreement Establishing IFAD empowers the Fund to provide grants to its Member States, or to intergovernmental organizations in which its Members participate, on such terms as the Fund deems appropriate.

Grants are recorded as expenses on disbursable date for the approved amount and as a liability for undisbursed amounts at fair value in accordance with IFRS 9. Following the approval by the Executive Board of the revisions to the General Conditions for Agricultural Development Financing (April 2009), grants become disbursable when a recipient has the right to incur eligible expenditure.

Cancellations of undisbursed balances are recognized as an offset to the expense in the period in which they occur.

### (m) Debt Sustainability Framework

Under the DSF, countries eligible for highly concessional lending receive financial assistance on a grant rather than a loan basis. Principal amounts forgone by IFAD are expected to be compensated on a pay-as-you-go basis (according to the underlying loan amortization schedule) by the Member States, while the service charge is not meant to be compensated. In line with the accounting policy on contributions-equity DSF principal compensation. contributions will be recorded in full as equity and as receivable when a Member State deposits an instrument of contribution, except for qualified instruments of contribution, which are subject to national appropriation measures that will be proportionally reduced upon fulfilment of those conditions. Amounts receivable from Member States as contributions and other receivables, including promissory notes, have been initially recognized in the balance sheet at their FVTPL in accordance with IFRS 9. Principal compensation will be negotiated during future replenishment consultations (see note 30(b), Contingent assets). DSF financing is subject to IFAD's General Conditions for Agricultural Development Financing. DSF financing is implemented over an extended time-horizon and recognized as expenditure in the statement of comprehensive income in the period in which conditions for the release of funds to the recipient are met.

### (n) Borrowing

Financial liabilities are accounted for at amortized cost. IFAD has signed several borrowing agreements with sovereign institutions at variable rate debt. Maturity could vary from 20 years to 40 years. IFAD may not prepay loans outstanding without incurring penalties. Interest rates are variable (linked to EURIBOR plus a spread). Borrowing activities are subject to the Integrated Borrowing Framework as approved by the Executive Board in 2020

(EB 2020/131/(R)/R.21/Rev.1). Borrowed funds are deployed in accordance with IFAD's policies and procedures (with the exception of DSF countries).

The Fund's borrowings include loans from Member States in the form of CPLs. These borrowings are carried and reported at amortized cost.

#### (o) Employee schemes

#### Pension obligations

IFAD participates in the United Nations Joint Staff Pension Fund (UNJSPF), which was established by the United Nations General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded, defined benefit plan. The financial obligation of the Fund to the UNJSPF consists of its mandated contribution, at the rate established by the United Nations General Assembly, together with any share of any actuarial deficiency payments under article 26 of the regulations of the Pension Fund. Such deficiency payments are only payable if and when the United Nations General Assembly has invoked the provision of article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Pension Fund as of the valuation date. At the time of this report, the United Nations General Assembly has not invoked this provision.

The actuarial method adopted for the UNJSPF is the Open Group Aggregate method. The cost of providing pensions is charged to the statement of comprehensive income so as to spread the regular cost over the service lives of employees, in accordance with the advice of the actuaries, who carry out a full valuation of the period plan every two years. The plan exposes participating organizations to actuarial risks associated with the current and former employees of other organizations, with the result that there is no consistent and reliable basis for allocating the obligation, plan assets and costs to individual organizations participating in the plan. IFAD, like other participating organizations, is not in a position to identify its share of the underlying financial position and performance of the plan with sufficient reliability for accounting purposes.

#### After-Service Medical Coverage Scheme

IFAD participates in a multi-employer ASMCS administered by the Food and Agriculture Organization of the United Nations (FAO) for staff receiving a United Nations pension and eligible former staff on a shared-cost basis. The ASMCS operates on a pay-as-you-go basis, meeting annual costs out of annual budgets and staff contributions. Since 2006, an independent valuation is performed on an annual basis.

In accordance with IAS 19R, IFAD has set up a trust fund into which it transfers the funding necessary to cover the actuarial liability. Service costs are recognized as operating expenditure. The net balance between interest costs and expected return on plan assets is recognized in net profit or loss, while remeasurements on assets and liabilities are recognized as the net position in other comprehensive income.

#### (p) Accruals for long-service entitlements

Employee entitlements to annual leave and longservice entitlements are recognized when they accrue to employees. An accrual is made for the estimated liability for annual leave and long-service separation entitlements as a result of services rendered by employees up to the balance sheet date.

## (q) Taxation

As a specialized agency of the United Nations, IFAD enjoys direct tax-exemption status under the Convention on Privileges and Immunities of Specialized United Nations Agencies of 1947 and the Agreement Establishing IFAD; and direct and indirect tax-exemption status under the Agreement between the Italian Republic and IFAD regarding the provisional headquarters of IFAD.

## (r) Revenue recognition

Service charge income and income from other sources are recognized as revenue in the period in which the related expenses are incurred (goods delivered or services provided).

#### (s) Tangible and intangible assets Fixed assets

Major purchases of property, furniture and equipment are capitalized. Depreciation is charged on a straight-line basis over the estimated useful economic life of each item purchased as set out below:

Permanent equipment fixtures	
and fittings	10 years
Furniture	5 years
Office equipment	4 years
Vehicles	5 years

#### **Right-of-use assets**

The Fund recognizes right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at, or before, the commencement date less any lease incentives

received. Right-of-use assets are depreciated on a straight-line basis over the lease term. In order to determine the lease term, the Fund considers the non-cancellable period established in the contract, in which the lessee is entitled to use the underlying asset taking also into account potential renewal options if the lessee is reasonably certain to renew. In particular, with reference to those contracts that allow the lessee to tacitly renew the lease contract after a first set of years, the lease term is determined taking into account factors such as the length of the first period, the existence of dismissal plans for the asset leased and any other circumstance indicating a reasonable certainty of the renewal. It should be noted that, as allowed by the standard, IFAD has decided not to recognize any right-of-use asset or lease liability with reference to the following lease contracts:

- short-term leases, lower than 12 months; and
- low-value assets leases. For this purpose an asset is considered as "low value" when its fair value as new is equal to or lower than US\$5000.

#### Lease liabilities

At the commencement date of the lease, lease liabilities are measured at the present value of the remaining lease payments, discounted at IFAD's average cost of funding.

#### Intangible assets

Software development costs are capitalized as intangible assets where future economic benefits are expected to flow to the organization. Depreciation is calculated on a straight-line basis over the estimated useful life of the software (four to 10 years). Leasehold improvements are capitalized as assets. Depreciation is calculated on a straight-line basis over their estimated useful life (not exceeding rental period of IFAD headquarters).

#### NOTE 3

# CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

#### (a) Critical accounting estimates and assumptions

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, rarely equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below:

#### Fair value and amortized costs of loans, undisbursed grants, deferred revenues, promissory notes and contributions receivable

For the details about the models applied for fair value calculation of loans, reference should be made to note 2.

The fair value of financial instruments that are not traded in an active market is determined by considering quoted prices for similar assets in active markets, quoted prices for identical assets in nonactive markets or valuation techniques.

# Financial assets and liabilities measured at fair value on the balance sheet are categorized as follows:

**Level 1.** Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in active markets.

**Level 2**. Financial assets and liabilities whose values are based on quoted prices for similar assets or liabilities, or pricing models for which inputs are substantially and significantly observable, either directly or indirectly, for substantially the full term of the asset or liability.

**Level 3**. Financial assets or liabilities whose values are based on prices or valuation techniques requiring inputs that are both unobservable and significant to the overall fair value measurement.

# (b) Critical judgement in applying accounting policies

#### Fair value accounting

Fair value accounting is required in order for IFAD to comply with IFRS. Reconciliations between measurement at fair value and amortized cost using the effective interest method and nominal values have been provided with respect to loans, receivables, undisbursed grants and deferred revenues.

In 2022, IFAD will reassess the appropriateness of the current fair value accounting policy in light of the evolving business model and the practices adopted by multilateral development banks, as the main comparators.

# Allowance for impairment losses: Impairment Methodology

#### Governance

IFAD calculates and reports its impairments based on ECL. The ECL framework is based on the requirements of IFRS 9's financial instruments section and validated by IFAD's Financial Controller's Division and Office of Enterprise Risk Management. The impairment allowances and ECL methodology have been approved by the Associate Vice-President Chief Financial Officer and Chief Controller, Financial Operations Department.

#### Three-stage model

IFAD recognizes a loss allowance for ECL on financial instruments measured at amortized cost and for loan commitments. The ECL comprises a three-stage model based on changes in the credit quality since initial recognition as described in note 2g(v) above. Impairments are reported based on either 12-month or lifetime ECL, depending on the stage allocation of the financial instrument. The stage allocation also determines if interest income for the financial instrument is reported on the gross carrying amount or the net of impairment allowance.

In order to determine whether there has been a significant increase in the credit risk since origination – and therefore transition to or from stage 2 – a combination of quantitative and qualitative risk metrics are employed.

The Fund has established an internal rating methodology by leveraging public ratings available in the market and by calculating proxies derived from macroeconomic conditions (income level and level of debt distress) and geographical area.

A loan's migration across the Fund's internal credit rating scale is monitored from the instrument's origination date to the reporting date. Following a significant deterioration in its counterparty's creditworthiness, the loan is classified at stage 2.

Depending on qualitative assessments, loans may be placed on a watch list and transitioned to stage 2.

#### Inputs

The ECL calculation is performed at the level of individual financial instruments. The main components comprise probability of default, loss given default, exposure at default and discount factor. The model is forward-looking: current and future macroeconomic conditions are incorporated into the model through macro-financial scenarios. A number of critical accounting estimates and judgements are also factored into the model.

#### Probability of default (PD)

The Fund uses forward-looking point-in-time (PIT) PD rates to calculate ECL. The PIT PD rates are derived from through-the-cycle (TTC) PD rates adjusted for projected macroeconomic conditions.

TTC PD rates express the likelihood of a default based on long-term credit risk trend rates. TTC PD rates are based on PDs associated to external ratings and are calibrated to reflect IFAD's default experience and PCS. On a yearly basis, TTC PD is reviewed based on IFAD's loss experience.

The cumulative TTC PD rates used in 2021 are set out by internal rating grade according to the methodology detailed below:

Each instrument in the Fund's portfolio has an internal PD associated with it. To calculate ECLs for both stage 1 and stage 2 instruments, a default probability has been retrieved from the PD embedded in the official observable ratings calibrated to the Fund's experience based on IFAD-specific historical default data.

For unrated exposures, a methodology has been developed starting from the rated portfolio and calculating proxies based on indicators such as income level, region and level of debt distress. For financial instruments at stage 3, the PD has been set at 100 per cent.

**Loss given default (LGD)** is the magnitude of the likely loss if a default would occur. An LGD is assigned to individual instruments, indicating how much the Fund expects to lose on each facility if the borrower defaults. For financial instruments at stages 1 and 2 the LGD has been determined in relation to the sovereign sector and calibrated in order to benefit from the Fund's recovery experience and PCS. For financial instruments at stage 3, the LGD has been informed by IFAD's historical data as well as the experience of other multilateral development institutions, currently set at 30 per cent.

**Exposure at default (EAD)** represents the expected exposure in the event of a default. It is measured from discounted contractual cash flows. The discount factor is the contractual effective interest rate of the financial instrument since IFAD's lending terms currently do not foresee any additional charge (i.e. commitment fee). Since EAD is modelled at an individual instrument level, all future expected cash flows, including disbursements, cancellations, prepayments and interest, are considered. EAD combines actual and contractual cash flows, and models future disbursements and repayments based on the Fund's own experience.

**Macroeconomic scenarios.** Unlike the incurred loss model, the IFRS 9 impairment methodology is forward-looking. The starting point is IFAD's view of

current and future macroeconomic conditions, and the credit environment. IFAD considers a range of outcomes in a probability-weighted manner. The purpose is to capture possible non-linear behaviour in the dependence of the ECL on economic conditions. Forward-looking macroeconomic simulations consist of neutral, positive and pessimistic scenarios. Each scenario is assigned a probability of occurrence based on expert judgement and best practices. The probabilities assigned to the pessimistic and optimistic scenarios indicate either a balance or skew in either direction in order to capture the perceived distribution of risks in a forward-looking manner.

Based on expert judgement, Management may adopt temporary adjustments to the model-based ECL impairment allowance in order to reflect additional factors that are not explicitly incorporated into the modelling of ECL or the credit risk ratings (e.g. significant scenarios or events representative of the Fund's peculiar experience).

## NOTE 4

# CASH AND INVESTMENT BALANCES

# Analysis of balances (consolidated)

As at 31 December

	US\$ thousands	
	2021	2020

AATI	3 100	-	
Total cash and investments	1 952 689	1 713 145	

# (a) Cash and investments subject to restriction

In accordance with the Agreement Establishing IFAD, the amounts paid into the Fund by the then-Category III Member States in their respective currencies on account of their initial or additional contributions are subject to restriction in usage.

#### (b) Composition of the investment portfolio by instrument (consolidated)

As at 31 December 2021, cash and investments, including payables for investment purchased and receivables, amounted to US\$1,952.7 million (2020 – to US\$1,713.1 million) comprised of the following instruments:

Table 3

	US\$ thousands		
	2021	2020	
Cash	702 563	472 298	
Fixed-income instruments	1 191 047	1 185 671	
Unrealized (loss)/gain on forward contracts	(725)	2 871	
Time deposits and other obligations of banks	54 256	58 573	
Unrealized (loss)/gain on futures	326	243	
Unrealized (loss)/gain on swaps	5 222	(6 511)

Receivables for investments sold and taxes receivable	13	13 051	
Payables for investments purchased	-	(13 156)	
Total investment portfolio	1 952 702	1 713 040	

### (c) Composition of the investment portfolio by currency (consolidated)

The currency composition of cash and investments as at 31 December was as follows:

Table 4

	US\$ thousands		
Currency	2021	2020	
Chinese renminbi	11 025	14 309	
Euro	1 003 815	1 041 739	
Japanese yen*	7 022	10 526	
Pound sterling*	12 457	15 709	
United States dollar	918 383	630 757	
Total cash and investment portfolio	1 952 702	1 713 040	

\* This balance includes open positions on foreign exchange forward contracts offset by open positions in United States dollars for the equivalent amount.

#### (d) Composition of the investment portfolio by maturity (consolidated)

The composition of cash and investments by maturity as at 31 December was as follows:

#### Table 5

_	US\$ thousands		
	2021	2020	
Due in one year or less	947 721	857 409	
Due after one year through five years	903 809	809 034	
Due from five to 10 years	99 112	46 068	
Due after 10 years	2 060	529	
Total cash and investment portfolio	1 952 702	1 713 040	

The average life to maturity of the fixed-income investments included in the consolidated investment

portfolio at 31 December 2021 was 25 months (2020 - 17 months).

#### (e) Financial risk management

IFAD's investment activities are exposed to a variety of financial risks: market risk, credit risk, custodial risk and liquidity risk.

IFAD's portfolio is managed in accordance with its Investment Policy Statement and Investment Guidelines, which address a variety of financial risks through restrictions on the eligibility of instruments and other limitations:

- 1. Benchmarks and limits on deviations from benchmarks;
- 2. Credit floors (refer to note 4[g], credit risk);
- Conditional value at risk limitation, which measures the expected loss under extreme conditions, providing an indication of how much value a portfolio could lose over a forwardlooking period; and
- 4. Duration, which measures the sensitivity of the market price of a fixed-income investment to a change in interest rates.

The benchmark indices used for the respective portfolios are shown in table 8.

#### (f) Market risk

The actual weights and amounts of each asset class within the overall portfolio, together with the asset allocation weights as of 31 December 2021 and 2020, are shown in tables 6 and 7. Disclosures for the net asset value relate to **IFAD-only** accounts.

Table	6
-------	---

2021	Actual allocation	
Asset class	%	US\$ millions
Cash	33.8	475.1
Swaps	0.4	5.1
Time deposit	-	0.1
Global government bonds/agencies	45.6	640.6
Corporate bonds	20.2	283.8
Total	100.0	1 404.7

#### Table 7

2020	Actual allocation	
Asset class	%	US\$ millions
Cash	28.0	325.8
Swaps	(0.5)	(6.1)
Time deposit	-	0.5
Global government bonds/agencies	42.4	494.0
Global credit bonds	30.1	351.1
Total	100.0	1 165.3

#### Table 8 Benchmark indices by portfolio

Portfolio	Benchmark index
Operational cash	Same as the portfolio return
Investment tranche (USD)	ICE BofAML 0-1 Year US Treasury Index (AAA)
Chinese renminbi portfolio	Zero
Investment tranche (EUR)	Liability repayment rate of return
World Bank Reserves Advisory and Management Program (RAMP)	IICE BofAML 0-1 Year US Treasury Index (AAA)
Hedging portfolio	No benchmark

Exposure to market risk is managed by modifying the duration of the portfolio.

The upper limit for the duration is set at:

- Global liquidity portfolio: Effective duration shall remain within a maximum range of 0.5 of one year in comparison to the benchmark; and
- Asset liability portfolio: Effective duration shall not exceed two years.

The effective duration of the IFAD-only investment portfolio as of 31 December 2021 and 2020, and respective benchmarks are shown in table 9.

#### Table 9 Average duration of portfolios and benchmarks in years (IFAD-only)

As of 31 December

	Port	folio	Benchi	nark
Portfolio	2021	2020	2021	2020
Operational cash	-	-	-	-

150	-4	1 401	-7	1 159
200	-6	1 340	-9	1 156
250	-8	1 398	-11	1 154
300	-9	1 396	-13	1 152

The graph below shows the negative relationship between yields and fixed-income portfolio value.

### Graph 1

Sensitivity analysis on investment portfolio value (IFAD-only)

(Millions of United States dollars)

As at 31 December 2021, if the general level of interest rates on the global markets had been 300 basis points higher (as a parallel shift in the yield curves) the overall portfolio value would have been lower by US\$13 million as a result of the capital losses on the marked-to-market portion of the portfolio. If the general level of interest rates on the global markets had been 300 basis points lower (as a parallel shift in the yield curves) the overall portfolio value would have been higher by US\$15 million as a result of the capital gains on the marked-to-market portion of the portfolio.

## (g) Credit risk

The Investment Policy Statement and Investment Guidelines set credit rating floors for the eligibility of securities and counterparties. The eligibility of banks and bond issues is determined on the basis of ratings by major credit rating agencies. The minimum allowable credit ratings for portfolios within IFAD's overall investment portfolio under the Investment Policy Statement and Investment Guidelines are shown in table 11. Table 11

Minimum credit rating floor as per Investment Policy Statement as at 31 December 2021

Money market Fixed-income securities: both nominal and	A- <sup>a</sup> inflation-linked
Fixed-income securities: both nominal and	inflation-linked
<ul> <li>Government and government agencies fixed-income securities at the national or subnational level</li> </ul>	A-
Supra-nationals	A-
<ul> <li>Asset-backed securities (only agency-issued or guaranteed)</li> </ul>	AAA
Covered bonds	A-
Corporate bonds	A-
Callable bonds	A-

Derivatives: for hedging purposes only

Currency forwards

•	Exchange-traded futures and options	Counterparty must have a minimum
•	Interest rate swaps	credit rating of A- (S&P) or A-(Fitch)
•	Cross currency swaps	or A3 (Moody's) <sup>b</sup>

- Credit default swaps
- Asset swaps

<sup>a</sup> Any additional eligibility criteria, as approved by the President, also apply.

<sup>b</sup> The rating that is compared to the rating floor is the second best rating of three agencies, Standard & Poor's (S&P), Moody's<sup>1</sup> or Fitch.

As at 31 December 2021, the average credit ratings by portfolio were in line with the minimum allowable ratings under the Investment Policy Statement and Investment Guidelines (table 12).

#### Table 12

#### Average <sup>a</sup> credit ratings by IFAD's portfolio As at 31 December 2021 and 2020

	Average credit rating <sup>a</sup>	
Portfolio	2021	2020
Operational cash	P-1	P-2
Investment tranche (EUR) <sup>b</sup>	A1	A1
Investment tranche (USD)	Aa2	Aaa

<sup>a</sup> The average credit rating is calculated based on market values as at 31 December 2021 and 2020.

<sup>b</sup> Approximately 11 per cent of the asset liability portfolio is in operational cash (including EUR 200 million in respect of the Agence Française Développement Ioan) with an IFADapproved commercial bank that has a credit rating at least P3 or BBB as reported by S&P.

## (h) Currency risk

Currency risk arises from the potential for losses stemming from changes in foreign exchange rates. IFAD's Asset and Liability Management Framework is guided by the principle of adequately managing the currency composition of its assets and liabilities, so as to limit losses deriving from fluctuations or an adverse reduction in IFAD's financing capacity.

In the case of misalignments that are considered persistent and significant, IFAD undertakes a realignment procedure by changing the currency composition of its projected inflows to align them to its outflows over a 24-month horizon.

#### (i) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and cash equivalents to meet loan and grant disbursements as well as debt repayments and administrative expenses as they arise.

IFAD's liquidity risk is addressed through IFAD's minimum liquidity ratio (MLR). During 2021, IFAD's liquidity policy stated that highly liquid assets in IFAD's portfolio should remain above 100 per cent of the projected amount of 12 months' disbursements of loans and grants and scheduled repayments of debt.

IFAD's latest financial model assumptions, incorporating the 2021 resources available for commitment under IFAD's sustainable cash flow approach, calculates a MLR of US\$1,005 million that is covered by IFAD's portfolio balance of US\$1,404.7 million.

# (j) Capital adequacy

The Fund's main internal capital adequacy metric is the deployable capital (DC) ratio. The DC ratio assesses IFAD's capital utilization and the availability of resources to support future commitments. To ensure that the Fund is well capitalized and maintains strong credit ratings at all times, the capital utilization trajectory is managed within appropriate tolerance levels, indicating that IFAD has enough capital to cover expected and unexpected losses derived from core and non-core risks embedded within the Fund's operations. As at December 2021, IFAD's DC ratio was within the parameters established in its Capital Adequacy Policy.

Contributions receivable	1 298 832	689 181
Qualified instruments of contribution	(155 522)	(61 406)
Total promissory notes and contributions receivables	1 143 310	627 775

### (a) Replenishment

Details of contributions and payments are shown in appendix H. IFAD11 became effective on 14 August 2018. IFAD12 became effective on 18 August 2021.

#### (b) Special Programme for Africa (SPA)

Details of contributions to the SPA under the first and second phases are shown in appendix H, table 3.

#### (c) Credit risk

Because of the sovereign status of its donor contributions, the Fund expects that each of its contributions for which a legally binding instrument has been deposited will ultimately be received. Collectability risk is covered by the provisions on contributions.

#### (d) Qualified instruments of contribution and promissory notes

At the end of December 2021, contributions receivables and promissory notes still subject to national appropriation measures amounted to US\$155.5 million (US\$61.4 million as at 31 December 2020).

## NOTE 7

# ALLOWANCES FOR CONTRIBUTIONS IMPAIRMENT

The fair value of the allowance is equivalent to the nominal value, given that the underlying receivables/promissory notes are already due at the balance sheet date. In accordance with its policy, IFAD has established allowances at 31 December as follows:

#### Table 1

	US\$ thousands	
	2021	2020
Balance at beginning of the year	120 569	121 798
Net increase/(decrease) in		
allowance	2 576	(1 229)
Balance at year-end	123 145	120 569
Analysed as follows:		
Promissory notes of contributors (a)	34 993	34 993
Amounts receivable from contributors (b)	88 152	85 576
Total	123 145	120 569

#### (a) Allowances against promissory notes

As at 31 December 2021, IFAD replenishment contributions deposited in the form of promissory notes up to and including IFAD10 have been fully drawn down.

In accordance with the policy, the Fund has established allowances against promissory notes as at 31 December:

Table 2

	US\$ tho	US\$ thousands	
	2021	2020	
Initial contributions			
Iran (Islamic Republic of)	29 358	29 358

7 216 248

7 135 825

Details of loans approved and disbursed, and of loan repayments, are presented in appendix I.

The fair value of the outstanding loan portfolio at year-end amounts to US\$8.0 billion.

#### (b) Accumulated allowance for impairment losses

An analysis of the accumulated allowance for loan impairment losses by entity is shown below:

#### Table 5a

Loans outstanding

Consolidated	US\$ thousands	
_	2021	2020
IFAD	103 501	104 833
Spanish Trust Fund (STF)	2 159	2 714
Accumulated allowance for impairment losses	105 660	107 547
Provision for Haiti Debt Relief	15 200	15 200
	120 860	122 747
Fair value adjustment	(18 265)	(19 377)
Total	102 595	103 370

The balances for the two years ending on 31 December are summarized below:

Table 5b

Consolidated	US\$ thousands	
	2021 202	
Balance at beginning of year	122 747	105 488
Change in provision	1 167	17 019
Exchange rate movements	(3 056)	150
Balance at end of year	120 860	107 547
Fair value adjustment	(18 265)	(19 377)
Total	102 595	103 370

For the purpose of calculating impairment in accordance with IFRS 9, loans at amortized cost are grouped in three stages.

Stage 1: impairment is calculated on a portfolio basis and equates to a 12-month ECL of these assets.

Stage 2: impairment is calculated on a portfolio basis and equates to the full lifetime ECL of these assets.

*Stage 3*: impairment is calculated on the full lifetime ECL calculated for each individual asset.

The following tables provide details of the accumulated allowance by stage and by entity.

#### Table 6

Consolidated	2021 US\$ millions		
	IFAD	STF	Total
Stage 1	5.0	0.1	5.1
Stage 2	36.9	1.6	38.5

Fair value	(19.2)	(0.1)	(19.3)
Total	100.8	2.6	103.4

The tables below provide a summary of the loan portfolio by stage and exposure (loans outstanding and undrawn commitments) as at 31 December 2021. The 2021 ECL embeds the macroeconomic impact of the COVID-19 pandemic, which improved over 2020.

#### Table 8

Consolidated	2021 US\$ n	nillions
	Exposure	Allowance
Stage 1	9 215.2	5.1
Stage 2	2 302.0	38.5
Stage 3	206.9	62.1
Total	11 724.1	105.7
Exposure:		
Loans outstanding	8 460.3	
Loan commitments	3 263.8	
Total	11 724.1	
Table 9		
Consolidated	2020 US\$ n	nillions
	Exposure	Allowance
Stage 1	10 072.5	13.1
Stage 2	1 405.4	29.6
Stage 3	215.9	64.8
Total	11 693.8	107.5
Exposure:		
Loans outstanding	8 427.1	
Loan commitments	3 266.7	
Total	11 693.8	

The table below provides indications of transfers between stages during the year.

#### Table 10

Consolidated	2021 US\$ millions			
	Stage 1	Stage 2	Stage 3	Total
Exposure at 1 January 2021	10 072.6	1 405.3	215.9 <sup>-</sup>	11 693.8
Transfer to Stage 1	25.6	(25.6)		-
Transfer to Stage 2 Transfer to Stage 3	(1 105.4)	1 105.4		-
New assets originated or purchased	929.0	-	-	929.0
Amortization repayments	(432.8)	(107.2)	(2.6)	(542.6)
Forex	(273.8)	(75.9)	(6.4)	(356.1)
Exposure as at 31 December 2021	9 215.2	2 302.0	206.9	11 724.1
Exposure by asset type:				
Loan outstanding	6 539.8	1 713.6	206.9	8 460.3
Loan commitments	2 675.4	588.4	-	3 263.8
Exposure as at 31 December 2021	9 215.2	2 302.0	206.9	11 724.1

The table below provides a sensitivity analysis of the loan portfolio provisioning to the variation of macroeconomic scenarios used in determining the level of impairment.

#### Table 11

US\$ million	Neutral	Optimistic	Pessimistic	Probability- weighted scenario
Stage 1	2.6	2.7	9.7	5.1
Stage 2	44.9	41.9	46.7	38.5
Stage 3	62.1	62.1	62.1	62.1
Total	109.6	106.7	118.5	105.7

### (c) Non-accrual status

Had income from loans in stage 3 amounts in nonaccrual status been recognized as income, income from loans as reported in the statement of comprehensive income for 2021 would have been higher by US\$1,956,030 (2020 – US\$1,777,500).

#### (d) Market risk

IFAD's loan portfolio is well diversified. Loans are provided to Member States according to the performance-based allocation system. Appendix I provides a summary of the geographical distribution, an analysis of the portfolio by lending terms and details about the maturity structure.

#### (e) Fair value estimation

Other than initial recognition and determination, the assumptions used in determining fair value are not sensitive to changes in discount rates. The associated impact of the exchange rate movement is closely monitored. In 2022, IFAD will reassess the fair value accounting policy in light of the evolving business model and the practices adopted by other multilateral development banks, as the main comparators.

#### NOTE 11

# FINANCIAL INSTRUMENTS BY CATEGORY

Tables 1 and 2 provide information about the Fund's assets and liabilities classification, accounting policies for financial instruments have been applied to the line items below:

#### Table 1

		US\$ millions

Contributions, borrowing liabilities, undisbursed grants, deferred revenues and share investments are classified at fair value level 2.

### NOTE 12

# HIPC INITIATIVE

### (a) Impact of the HIPC Initiative

IFAD provided funding for the HIPC Initiative in the amount of US\$249.3 million during the period 1998-2021. Details of funding from external donors on a cumulative basis are found in appendix E2.

For a summary of debt relief reimbursed since the start of the Initiative and expected in the future, please refer to appendix J. Debt relief approved by the Executive Board to date excludes all amounts relating to the enhanced Initiative for Eritrea, Somalia and the Sudan. Authorization for IFAD's share of this debt relief is expected to be given by the Executive Board in 2022. At the time of preparation of the 2021 Consolidated Financial Statements, the estimate of IFAD's share of the overall debt relief for these countries, including principal and interest, was US\$139.9 million (2020 - US\$184.8 million) for Eritrea, Somalia and Sudan). Investment income amounted to US\$8.4 million (2020 - US\$8.4 million) from the HIPC Trust Fund balances.

#### (b) Accumulated allowance for the HIPC Initiative

The balances for the two years ended 31 December are summarized below:

	US\$ thousands	
	2021	2020
Balance at beginning of year	6 734	8 989
Change in provision	(1 816)	(2 546)
Exchange rate movements	(184)	291
Balance at end of year	4 734	6 734
Fair value adjustment	(1 424)	(2 023)
Total	3 310	4 711

## NOTE 13

# PAYABLES AND LIABILITIES

	US\$ thousands	
	2021	2020
Payable for investments purchased	-	13 156
ASMCS liability	156 462	159 089
Other payables and accrued liabilities	85 293	77 070
Total	241 755	249 315

Of the total above, an estimated US\$199.2 million (2020 – US\$200.8 million) is payable in more than one year from the balance sheet date.

#### NOTE 14

# UNDISBURSED GRANTS

The balance of effective grants not yet disbursed to grant recipients is as follows:

US\$ thousands	
2021	2020
103 516	119 751
215 954	180 878

STF	2 197	2 093	
PSTF	36	-	
Total	72 391	70 178	

#### NOTE 18

# INCOME FROM CASH AND INVESTMENTS

#### (a) Investment management (IFAD-only)

As at 31 December 2021, funds under management in IFAD's portfolio amounted to US\$1,405 million (2020 – US\$1,165 million).

#### (b) Derivative instruments

IFAD's portfolio invests in derivative instruments for risk mitigation purposes, primarily to manage the duration of the global liquidity portfolio and asset and liability portfolio, and to ensure alignment to the currency composition of IFAD's commitments. Accordingly, such investments are not considered hedge accounting.

#### (i) Futures

IFAD had no outstanding currency forwards at 31 December 2021. During fiscal year 2021, realized gains on futures amounted to US\$0 million (2020: realized losses US\$1.18 million).

#### (ii) Swaps

IFAD's asset portfolios use derivative instruments such as swaps to immunize positions from interest rate risk. Positions hedged are of medium- to longterm maturities, fixed-rate coupon bonds, effectively converted to variable rate instruments.

#### Table 1

	US\$ thousands	
	2021	
Outstanding swaps notional	732 145	
Derivative assets		
Interest rate swaps	-	
Derivative liabilities		
Interest rate swaps	5 228	
Net unrealized market (losses)/ gains		
of swap contracts	5 228	
Maturity range of swap contracts	0.1 to 6.1 years	

#### (iii) Forwards

The unrealized market value loss on forward contracts as of 31 December 2021 amounted to US\$0.7 million (2020 – US\$2.87 million). The maturities of forward contracts of 31 December 2021 was 0 days (31 December 2020 – 104 days).

# (c) Income from cash and investments (consolidated)

Gross income from cash and investments for the year ending 31 December 2021 amounted to US\$7.0 million (2020 – gross income of US10.3 million).

### Table 2

Fair value	2021	2020
Interest from banks and fixed- income investments	12 198	10 488
Net realized and unrealized (losses)/gains from futures/options/ swaps	5 617	(6 046)
Realized capital gain/(loss) from fixed-income securities	(1 001)	460
Unrealized gain/(loss) from fixed-income securities	(9 844)	5 380
Total	6 970	10 282

The figures above are broken down by income for the consolidated entities, as follows:

#### Table 3

	US\$ thousands	
_	2021	2020
IFAD	7 296	6 257
ASMCS Trust Fund	(986)	3 286
HIPC Trust Fund	2	15

Haiti Debt Relief Initiative	27	223
ASAP	202	1 884
Supplementary funds	94	1 118
Less: income		
deferred/reclassified	(33)	(2 700)
Total	6 970	10 282

The annual rate of return on IFAD-only cash and investments in 2021 was 0.28 per cent net of investment expenses (2020: 0.55 per cent net of investment expenses).

#### NOTE 19

# INCOME FROM OTHER SOURCES

This income relates principally to reimbursement from the host government for specific operating expenses. It also includes service charges received from entities housed at IFAD as compensation for providing administrative services. A breakdown is provided below:

	US\$ thousands	
Consolidated	2021	2020
Reimbursement from host government	8 468	8 065
Income from other sources	4 061	2 900
Total	12 529	10 965

# INCOME FROM CONTRIBUTIONS

	US\$ thousands	
	2021	2020
IFAD	22 625	20 548
ASAP	4 374	4 953
AATI	248	-
Supplementary funds	165 640	90 188
Total	192 887	115 689

**NOTE 21** 

# **OPERATING EXPENSES**

An analysis of IFAD-only operating expenses by principal funding source is shown in appendix L. The breakdown of the consolidated figures is set out below:

	US\$ thousands	
	2021 2020	
IFAD	183 797	169 991
Other entities	23 185	17 546
Total	206 982	187 537

The costs incurred are classified in the accounts in accordance with the underlying nature of the expense.

### **NOTE 22**

# STAFF NUMBERS, RETIREMENT PLAN AND MEDICAL SCHEMES

#### (a) Staff numbers

Employees that are on IFAD's payroll are part of the retirement and medical plans offered by IFAD. These schemes include participation in the UNJSPF and in the ASMCS administered by FAO.

The number of full-time equivalent employees of the Fund and other consolidated entities in 2021 was as follows (breakdown by principal budget source):

#### Table 1

Full-time equivalent	Professional	General Service	Total
IFAD administrative budget	366	177	543
APO / special programme officer	23	-	23
Others	36	10	46
Programme funds	27	4	31
Total 2021	452	191	643
Total 2020	422	198	620

#### (b) Non-staff

As in previous years, in order to meet its operational needs, IFAD engaged the services of consultants, conference personnel and other temporary contract-holders, who are also covered by an insurance plan.

#### (c) Retirement plan

The UNJSPF carries out an actuarial valuation every two years; the latest was prepared as at 31 December 2019. This valuation revealed an actuarial surplus amounting to 0.5 per cent of pensionable remuneration. Thus the UNJSPF was assessed as adequately funded and the United Nations General Assembly did not invoke the provision of article 26, requiring participating agencies to provide additional payments. IFAD makes contributions on behalf of its staff and would be liable for its share of the unfunded liability, if any (current contributions are paid as 7.9 per cent of pensionable remuneration by the employee and 15.8 per cent by IFAD). Total retirement plan contributions made for staff in 2021 amounted to US\$14.0 million (2020 – US\$13.2 million).

#### (d) After-Service Medical Coverage Scheme

The latest actuarial valuation for the ASMCS was carried out as at 31 December 2021. The methodology used was the projected unit-credit-cost method with service prorates. The principal actuarial assumptions used were as follows: discount rate 2.0 per cent; return on invested assets 3.25 per cent; expected salary increase 2.3 per cent; initial medical cost increase, 4.40 per cent; inflation 2.3 per cent; and exchange rate. The results determined IFAD's liability as at 31 December 2021 to be US\$156.5 million. The 2021 and 2020 financial statements include a provision and related assets as at 31 December as follows:

#### Table 2

	US\$ thousands	
	2021 2020	
Past service liability	(156 462)	(159 089)
Plan assets	95 487	100 062

Past service liability		
Total provision at		
1 January	(159 089)	(138 148)
Interest cost	(902)	(999)
Current service charge	(8 000)	(6 426)
Actuarial gains/(losses)	11 529	(13 516)
Provision at 31 December	(156 462)	(159 089)
Plan assets		
Total assets at 1 January	100 062	91 495
Contribution paid	1 345	-
Interest earned on balances	(1 201)	3 039
Exchange rate movement	(4 719)	5 528
Total assets at 31 December	95 487	100 062

ASMCS assets are invested in accordance with the ASMCS Trust Fund Investment Policy Statement as approved by the Executive Board and Governing Council from time to time.

IFAD provides for the full annual current service costs of this medical coverage, including its eligible retirees. In 2021, such costs included under staff salaries and benefits in the financial statements amounted to US\$8.9 million (2020 – US\$7.4 million).

Based on the 2021 actuarial valuation, the level of assets necessary to cover ASMCS liabilities is US\$95.5 million in net present value terms (including assets pertaining to the International Land Coalition). As reported above, at 31 December 2021 the assets already held in the trust fund are US\$95.5 million; consequently this is sufficient to cover the level of liabilities.

# (e) Actuarial valuation risk of the ASMCS

A sensitivity analysis of the principal assumptions of the liability and service cost contained within the group data as at 31 December 2021 is shown below:

Table 3	
Impact on	Liability
Medical inflation:	
4.85 per cent instead of 3.85 per cent	43.6
3.85 per cent instead of 2.85 per cent	(32.9)

# NOTE 28

# HIPC INITIATIVE EXPENSES

This balance represents the debt relief provided during the year to HIPC eligible countries for both principal and interest. It reflects the overall net effect of new approvals of HIPC debt relief or top-ups, the payments made to IFAD by the Trust Fund on behalf of HIPC and the release of the portion of deferred revenues for payments from past years.

## NOTE 29

# HOUSED ENTITY AND OTHER FACILITIES

At 31 December liabilities owed (from)/to IFAD by the housed entities were :

	US\$ thousands		
	2021 202		
GCF	(2)	(312)	
International Land Coalition	2 681	766	
Total	2 679	454	

# NOTE 30

# CONTINGENT LIABILITIES AND ASSETS

## (a) Contingent liabilities

IFAD has contingent liabilities in respect of debt relief announced by the World Bank/International Monetary Fund for three countries. See note 12 for further details of the potential cost of loan principal and interest relating to these countries, as well as future interest not accrued on debt relief already approved as shown in appendix J.

IFAD has a contingent liability for DSF financing effective but not yet disbursed for a global amount of US\$965.3 million (US\$1,005.1 million in 2020). In particular, at the end of December 2021, DSF financing disbursable but not yet disbursed, because the conditions for the release of funds were not yet met, amounted to US\$727.5 million (US\$703.2 million in 2020) and DSF projects approved but not yet effective amounted to US\$237.8 million (US\$301.9 million in 2020).

#### (b) Contingent assets

At the end of December 2021 the balance of qualified instruments of contribution amounted to US\$155.5 million. These contributions are subject to national appropriation measures, therefore those receivables will be considered due upon fulfilment of those conditions and probable at the reporting date.

The DSF framework, approved in 2007, aims for the full recovery of principal repayments forgone through a pay-as-you-go compensation mechanism by Member States. Consequently, IFAD has undertaken a review together with its governing bodies of the mechanism through which this policy will be implemented. This led to the endorsement by the Executive Board in 2013 of the underlying principles thereof. The policy was also endorsed by Member States in the Replenishment Consultation process in 2014 and finally approved by the Governing Council in 2015, moreover in 2019 a DSF reform was conducted to strengthen the compensation

mechanism. This, in effect, provides a concrete basis on which Member States will be expected to contribute towards principal reflows forgone as a result of the DSF, in addition to their regular contributions. The reform will become effective as of 2022, when the IFAD12 period begins.

In 2016, Member States began to make commitments for payment of DSF obligations. The receipt of the funds that have been provided as DSF grants is therefore considered probable and hence is disclosed as a contingent asset. The nominal amount of the amount so disbursed as at 31 December 2021 amounted to US\$1,583.2 million (US\$1,419.3 million as at December 2020). DSF compensation received to date amounts to US\$34 million (US\$34 million in 2020).

# NOTE 31

# POST-BALANCE-SHEET EVENTS

Management is not aware of any events after the balance sheet date that provide evidence of conditions that existed at the balance sheet date or were indicative of conditions that arose after the reporting period that would warrant adjusting the Financial Statements or require disclosure.

# **NOTE 32**

# **RELATED PARTIES**

The Fund has assessed related parties and transactions carried out in 2021. This pertained to transactions with Member States (to which IAS 24, paragraph 25, is applicable) key management personnel and other related parties identified under IAS 24. Transactions with Member States and related outstanding balances are reported in appendices H and I. Key management personnel are the President, Vice-President, Associate Vice-Presidents and Director and Chief of Staff, as they have the authority and responsibility for planning, directing and controlling activities of the Fund.

The table below provides details of the remuneration paid to key management personnel over the course of the year, together with balances of various accruals.

Aggregate remuneration paid to key management personnel includes: net salaries; post adjustment; entitlements such as representation allowance and other allowances; assignment and other grants; rental subsidy; personal effect shipment costs; postemployment benefits and other long-term employee benefits; and employer's pension and current health insurance contributions. Key management personnel participate in the UNJSPF.

Independent review of the latest annual financial disclosure statements confirmed that there are no conflicts of interest, nor transactions and outstanding balances, other the ones indicated below, for key management personnel and other related parties identified as per IAS 24 requirements.

	US\$ thousands	
	2021	2020
Salaries and other entitlements	2 485	1 632
Contribution to retirement and medical plans	587	368
Other related parties		
Total*	3 072	2 000
Total accruals	577	447
Total receivables	50	-

\* The increase in 2021 is primarily due higher number of key management personnel.

### NOTE 33

# DATE OF AUTHORIZATION FOR ISSUE OF THE CONSOLIDATED FINANCIAL STATEMENTS

The 2021 Consolidated Financial Statements are issued by Management for review by the Audit Committee in March 2022 and endorsement by the Executive Board in April 2022. The 2021 Consolidated Financial Statements will be submitted to the Governing Council for formal approval at its next session in February 2023. The 2020 Consolidated Financial Statements were approved by the Governing Council at its forty-fifth session in February 2022.

## Management and external auditor's reports

Investing in rural people

### Management Assertion Report on the Effectiveness of Internal Controls Over Financial Reporting

Management of the International Fund for Agricultural Development (hereinafter IFAD or the Fund) is responsible for the preparation, fair presentation and overall integrity of its Consolidated Financial Statements. The Financial Statements of the Fund have been prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

According to the Financial Regulations of IFAD, the President is responsible for establishing and maintaining appropriate internal financial control and audit systems of the Fund which would include those over external financial reporting.

The Executive Board of the Fund established an Audit Committee, whose terms of reference, among other things, is to assist the Executive Board in exercising supervision over the financial administration and internal oversight of the Fund. Financial administration would include effectiveness of internal controls over financial reporting. The Audit Committee is comprised entirely of selected members of the Executive Board and oversees the process for the selection of the external auditor and makes a recommendation for such selection to the Executive Board for its approval. The Audit Committee meets with the external and internal auditors to discuss, respectively, the scope and design of the audit, and annual workplan, and any other matter within the Audit Committee's terms of reference that may require the Audit Committee's attention.

The system of internal controls over financial reporting contains monitoring mechanisms and actions that are meant to detect, prevent and facilitate correction of deficiencies identified that may result in material weaknesses in internal controls over financial reporting. There are inherent limitations to the effectiveness of any system of internal control, including the possibility of human error and the circumvention or overriding of controls. Accordingly, an effective internal control system can only provide reasonable, as opposed to absolute assurance with respect to financial statements. Furthermore, the effectiveness of an internal control system can change with circumstances.

The Fund's Management assessed the effectiveness of internal controls over financial reporting for the financial statements presented in accordance with IFRS as of 31December 2021. The assessment was based on the criteria for effective internal controls over financial reporting described in the Internal Control -Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). A report was provided to Management by the Office of Audit and Oversight providing reasonable assurance as to the operational effectiveness of these controls. Based on the work performed, Management believes that the Fund maintained an effective system of internal controls over financial reporting as of 31 December 2021, and is not aware of any material control weakness that could affect the reliability of the 2021 financial statements. IFAD's independent external auditor, Deloitte & Touche, S.p.A, has audited the financial statements and has issued an attestation report on Management's assertion on the Fund's internal controls over financial reporting.

#### INDEPENDENT AUDITOR'S REPORT

#### To the International Fund for Agricultural Development

Deloitte.

#### Opinion

We have audited the consolidated financial statements of International Fund for Agricultural Development (the "Company"), which comprise the consolidated and IFAD-only balance sheets as at 31 December 2021, the consolidated and IFAD-only statements of comprehensive income, the consolidated and IFAD-only statements of changes in retained earnings and the consolidated and IFAD-only cash flow statements for the year then ended, the statements of complementary and supplementary contributions, the statement of cumulative complementary contributions from 1978 to 2021, the statement of contributions from member states and donors to the HIPC Initiative, the contributions received in 2021, the unspent funds, the summary of the rural resilience programme and a summary of significant accounting policies and other notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Information Other than the "Consolidated Financial Statements of IFAD as at 31 December 2021" and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the "High-level review of IFAD's Financial Statements for 2021" but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

## Deloitte.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the President and those charged with governance for the Consolidated Financial Statements

The President is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as the President determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the President is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting
  estimates and related disclosures made by the President.

## Deloitte.

3

- Conclude on the appropriateness of the President's use of the going concern basis of accounting
  and, based on the audit evidence obtained, whether a material uncertainty exists related to events
  or conditions that may cast significant doubt on the Company's ability to continue as a going
  concern. If we conclude that a material uncertainty exists, we are required to draw attention in our
  auditor's report to the related disclosures in the consolidated financial statements or, if such
  disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence
  obtained up to the date of our auditor's report. However, future events or conditions may cause the
  Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the consolidated entities or business activities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### INDEPENDENT AUDITOR'S REPORT ON MANAGEMENT'S ASSESSMENT ON INTERNAL CONTROLS OVER FINANCIAL REPORTING

#### To the International Fund for Agricultural Development

We have undertaken a reasonable assurance engagement of the accompanying management's assessment that the International Fund for Agricultural Development ("IFAD") maintained effective internal controls over financial reporting as of December 31, 2021, as contained in IFAD's Management Assertion Report on the effectiveness of internal controls over financial reporting.

#### Management's Responsibility

Management of IFAD is responsible for the preparation of its assessment on the effectiveness on internal controls over financial reporting in accordance with the criteria for effective internal controls over financial reporting described in the "Internal Control – Integrated Framework" issued by the Committee of Sponsoring Organisations of the Treadway Commission (2013 framework). IFAD's management is responsible for implementing and maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Consolidated financial statements of IFAD as of December 31, 2021.

#### Independence and Quality Control

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence, and due care, confidentiality and professional behavior.

Our firm applies International Standard on Quality Control 1 (ISQC Italia 1) and, accordingly, maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

#### Auditor's Responsibility

Our responsibility is to express an opinion on management's assessment on the effectiveness on internal controls over financial reporting based on the procedures we have performed. We conducted our reasonable assurance engagement in accordance with International Standards on Assurance Engagements - Assurance Engagements other than Audits or Reviews of Historical Information ("ISAE 3000 revised") issued by International Auditing and Assurance Standards Board for reasonable assurance engagements. This standard requires that we plan and perform procedures in order to obtain a reasonable assurance as to whether management's assessment on the effectiveness on internal controls over financial reporting is free of material misstatement.

## Deloitte.

A reasonable assurance engagement involves performing procedures to obtain evidence about management's assessment on the effectiveness on internal controls over financial reporting. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement in management's assessment on the effectiveness on internal controls over financial reporting, whether due to fraud or error.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Characteristics and Limitations of Internal Controls over Financial Reporting

An entity's internal control over financial reporting is a process designed by, or under the supervision of, the entity's principal executive and principal financial officers, or persons performing similar functions, and effected by the entity's board, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles and that the receipts and expenditures of the entity are being made only in accordance with authorizations of the entity's management; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, management's assessment that IFAD as at December 31, 2021 maintained effective internal controls over financial reporting, included within the Consolidated financial statements of IFAD as of December 31, 2021, is fairly stated, in all material respects, based on the criteria for effective internal controls over financial reporting described in the "Internal Control – Integrated Framework" issued by the Committee of Sponsoring Organisations of the Treadway Commission (2013 framework).

#### Replenishments through to IFAD11: Statement of Members' contributions a (continued) (As at 31 December 2021)

	Replenishments through to	IFAD11						
Member State	IFAD10 (thousands of US\$ equivalent)	Payments					quivalent)	
		Currency	Amount (thousands)	Thousands of US\$ equivalent	Cash	Promissory notes	Total	
Viet Nam	3 303	US\$	600	600	600		600	
Yemen	4 348							
Yugoslavia	108							
Zambia <sup>e</sup>	894							
Zimbabwe	2 703	US\$	100	100	100		100	
Total contributions 31 December 2021	8 038 037			1 036 304	1 007 913	27 693	1 035 606	
For 2020	8 037 632			979 416	606 611	118 270	724 881	

<sup>a</sup> Australia's withdrawal from membership of IFAD became effective on 31 July 2007.

<sup>b</sup> See note 6(a).

<sup>c</sup> See notes 7(a) and (b).
 <sup>d</sup> In addition to its pledge to the Eighth Replenishment of EUR 6 million, Ireland made a further contribution of EUR 891,000.

Payments include cash and promissory notes. Amounts are expressed in thousands of United States dollars. Thus payments received for less than US\$500 are not shown in appendix H. Consequently, the contribution from Zambia (US\$148) does not appear above.

<sup>a</sup> Loans denominated in United States dollars and are repayable in the currencies in which withdrawals are made. Loans in SDR and, for purposes of presentation in the balance sheet, the accumulated amount of loans denominated in SDR has been valued at the US\$/SDR rate of 1.402 at 31 December 2021. Loans denominated in EUR have been valued at the US\$/EUR rate of 0.879 at 31 December 2021.

<sup>b</sup> Repayment amounts include participation by Belgium, the Netherlands and Norway in specific loans to these countries, resulting in partial early repayment and a corresponding increase in committable resources.

<sup>c</sup> The amount of the loan to the IFAD Fund for Gaza and the West Bank is included in the above balance. See note 2(g)(ii).
