NEED FOR FOOD SYSTEM TRANSFORMATION

FOOD SYSTEM AS COMPLEX ADAPTIVE SYSTEM

Interactions and feedback loops

Impact innovations difficult to predict

Resistant to change

Little scaling out and scaling up of innovations

FOODCLIC'S AIM

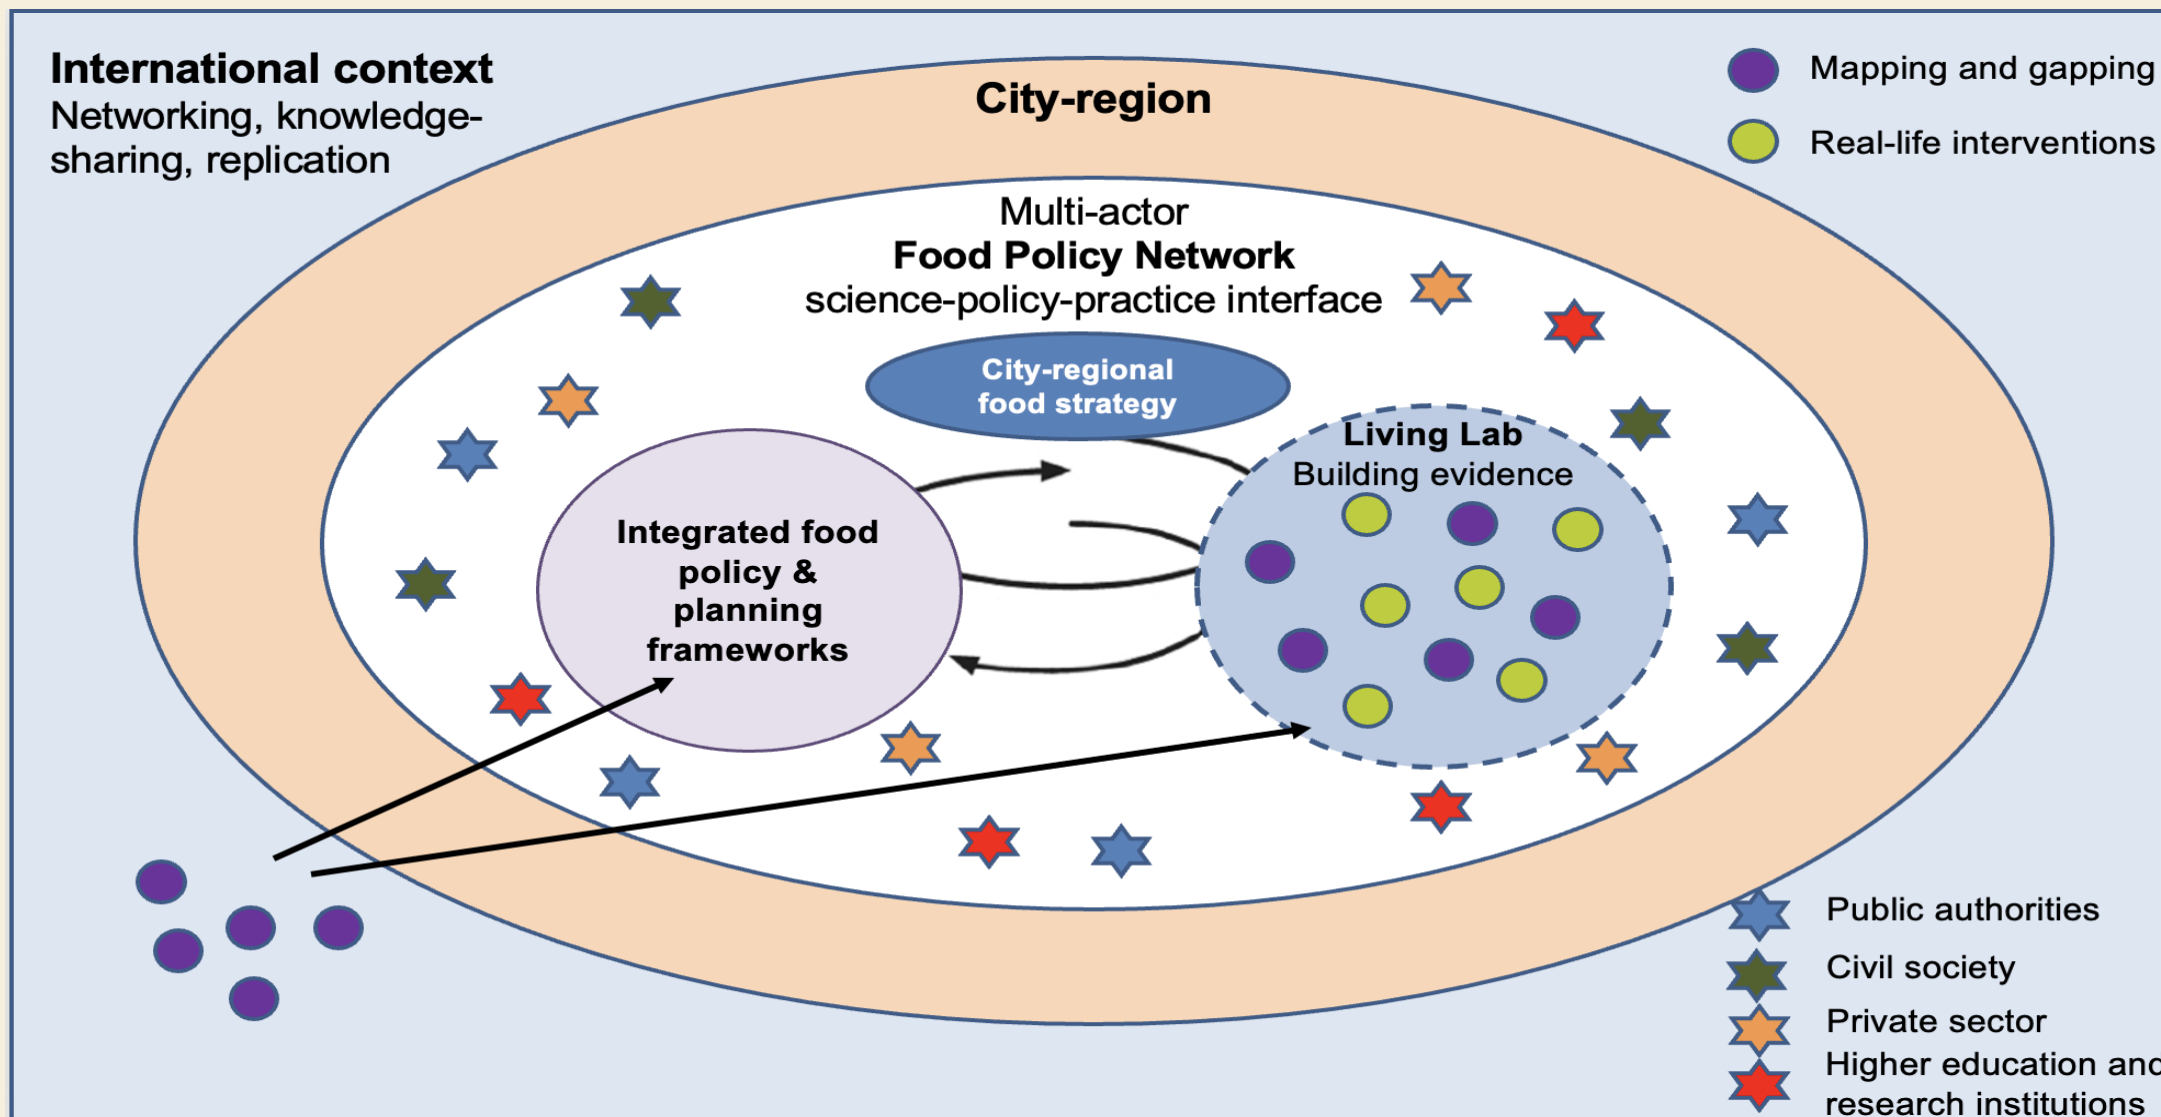

Create more sustainable urban **food environments** to empower **citizens** to access healthy, sustainably produced food

Where food supply and demand meet

How to accelerate food system transformation?

FOODCLIC'S ARCHITECTURE AT CITY-REGIONAL LEVEL

AARHUS

Aarhus University
Aarhus Municipality

AMSTERDAM

City of Amsterdam
Food Connect Foundation
(Stichting Voedsel Verbindt)
VU Foundation (Stichting VU)

BARCELONA

Metropolitan Area of Barcelona
IrsiCaixa AIDS Research Institute

BERLIN

Humboldt University of Berlin
Berlin Food Policy Council

BRASOV

City of Brasov
Transilvania University of Brasov

BUDAPEST

Municipality of Budapest
ESSRG Nonprofit KFT

LISBON

Faculty of Medicine, University of Lisbon
Municipal Environmental Government Agency (EMAC)

LUCCA

Municipality of Capannori
University of Pisa
