- Dr. khalida bozar NEN director
- Mr. Fabrizio Feloni – IOE office
- Excellency Ambassador of Sudan, Rome
- Dr. Tarek Ahamed – CD of IFAD – Sudan
- Distinguished Ladies and Gentlemen

Good afternoon

السلام عليكم ورحمة الله وبركاته

It is my pleasure and honor to address you all in this important workshop which is concerned with the findings of Country Strategy and Programs Evaluation done by IFAD Independent Office of Evaluation, Let me take this opportunity to thank IFAD for the continuous support to Sudan and IFAD Independent Office of Evaluation who organized this workshop under current difficult health condition of Corona Virus Pandemic (covid-19), as well as the Ministry of Foreign Affairs for hosting this workshop.

Ladies and Gentlemen

This meeting will provide us an excellent opportunity to review the report of the Country Strategy and Programs Evaluation, which was conducted by the Independent Office of Evaluation team last year.

Here I would like to convey my thanks and appreciations to the evaluation team for the great efforts that had been made under the complicated conditions of Sudan at that time, which ended with the Victory of the Glorious Revolution.

Ladies and Gentlemen

We are very happy that the evaluation came out with a very good rating for the performance of the country programs, this evaluation will greatly help preparing the next COSOP based on the evaluation results and observations that will fulfill our country needs to overcome rural poverty and improve rural people livelihood and productive capacities.

Ladies and Gentlemen

Finally, I would like to thank everyone who participated in preparing this workshop, special thanks to Sudanese embassy in Rome, we hope to have fruitful discussion on the evaluation findings and recommendations, and we assure that the government will follow the final output of this workshop.

Thank you for listening.
